Breather plug labyrinth version made of stainless steel

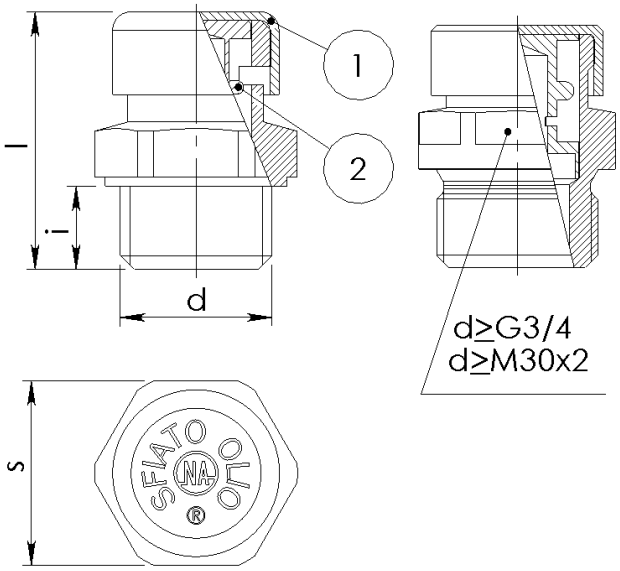

BODY MATERIAL Stainless steel
(1) PROTECTION CAP Stainless steel
(2) LABYRINTH Stainless steel

DESCRIPTION

The breather plug (or breather cap) is designed to mantain at atmospheric pressure a unit even when it is under sudden changes in ambient temperature, or in oil temperature.This model has an internal labyrinth that prevents oil loss. It is particularly suitable for use where oil is violently agitated and could be splashed against the cap. The cap protects from foreign bodies which may enter into the mechanical equipment and may cause damages.
