

33A.IP65

Breather plug inner valve version made of brass. IP65 approved

BODY MATERIAL Brass

(1) SEAL FKM

(2) SPRING Stainless steel

(3) PROTECTION CAP White Zinc-plated Steel

SET PRESSURE ~ 0,25 bar

RANGE TEMPERATURE -10 +150 [°C] ; +14 +302 [F]

DESCRIPTION

The breather plug is designed to maintain safe, equalized pressure in a unit even when it is under sudden changes in ambient temperature. This model has a valve inside. This system allows the expulsion of the exceeding air in the reservoir, thus re-establishing the pressure setting of the breather. In off-road application it decreases the risk of oil leakage from the unit. The cap protects from foreign bodies which may enter into the mechanical equipment and may cause damages.
